

Lincoln Times

3rd Grade Edition - November 2012

Here is What is Happening in 3rd Grade

Art-Mrs. Humphreys

We have had a busy fall in the art room. The third grade students have made portfolios (to store their projects throughout the year), clay coil pots, fire prevention posters, nature collages and artistic skeletons. We are just starting a drawing project where the students will be drawing tools from observation, then creating a final drawing that incorporates those tools. We will focus on looking carefully at all details of the tools in the pre-drawings and then create a drawing with an organized pattern.

Music - Mrs. Hill

Third grade students are having a great year in music, they are so enthusiastic about singing and doing a great job! Students have been learning about how each voice, instrument or even sounds have their own tone color. They also sang songs using different dynamic levels which are written in Italian. Ask your student if they know what mezzo forte is! Miss Alice Cook is a student teacher in the music room for a few months from Iowa Wesleyan College. Welcome Miss Cook!

ELP News - Mrs. Sieren

I just wanted to let you know that all of the classes have finished the Cognitive Abilities Tests. These have been sent away to be scored. I should receive the scores back by the end of November. In early December the students will take another set of the Scholastic Reading Inventory test and the Scholastic Math Inventory test. These scores will also be used to help determine placement, as well as their scores from the beginning of the year. Continue to be patient. The more scores we have to consider over a period of time, the more accurate the information.

Notes from the Office

Attendance/Absence Line

A new attendance line has been set up for absences in the district. Parents can now call 653-1101 and will get a greeting. They can then press a number to select which school they would like to leave a message for, and then will be able to leave a message about an absence. This will be helpful if you need to call Lincoln about an absence before anyone is in the office at 7:30. You may still call the main office to report an absence, but this is a second option for those parents that are heading off to work early. Thanks for your help in letting Lincoln know when your student will not be in attendance.

Iowa School Alerts

With winter coming and parents needing to know if we are getting out of school early on snow or ice days, or if school is delayed or cancelled, you can sign up for Iowa Alerts. The Washington Community School District uses Iowa Alerts for notification of changes in our school day. You can be alerted by either a cell phone or email address.

To sign up for Iowa Alerts, go the Washington web page at: www.washington.k12.ia.us or you may also access Iowa School Alerts from their address: www.schoolalerts.iowa.gov

At the bottom of the Washington Community Schools web page, you will see a blue box with Iowa School Alerts in it. Click on that box. You will have to follow the registration process for this alert system. If you have any problems with your registration, please feel free to give us a call.

Red Wheel Fundraiser Delivery

Red Wheel Fundraiser will be making a delivery of all the items sold on Tuesday, November 13, from 2:45 - 6:00. If students sold items to family and friends, they need to make arrangements for the pick up to those items on Tuesday, November 13th, and get them delivered as soon as possible.

Notes from the Nurse

Head Lice Facts for Parents

What are head lice?

- Lice or Pediculosis are small tan to grayish-white insects about the size of a sesame seed and have 6 legs.
- They usually don't carry disease, but can cause your family discomfort, stress and sometimes skin irritation.
- Lice can live up to 30 days on a person's head and lay 50-150 eggs. To live, adult lice need to feed on blood every 3-6 hours. If the louse falls off a person, it dies within 2 days.
- Head lice live on the head and rarely leave the body.

How do I know if my child has head lice and if so, how did they get it?

1. Itching is the first sign of head lice. Check your child's hair weekly. Make it a part of routine hygiene. Check your child's head and scalp all over especially behind the ears and near the neckline and the back of the neck.
2. Look for lice and their eggs (nits). You may see the nits before you find a louse as they move very quickly when you part the hair and each louse can lay 150 eggs.
3. You may first find lice or nits at the nape of the neck and behind the ears. But they can live anywhere so check the whole scalp.
4. Children get head lice through head to head contact. Lice CANNOT hop, jump, or fly but they can crawl.
5. Sharing combs, brushes, hair fasteners, hats, caps, coats, and neck scarves spread head lice. Sharing a locker or cubbyhole with a lice infested child is a common way to spread head lice.
6. ANY child can get head lice-regardless of social standing or cleanliness.
7. Dealing with head lice is difficult, sometimes embarrassing and can be overwhelming to anyone caring for children.
8. If a child to have lice, parents will be notified and education regarding treatment is given. Children are allowed to remain in class. Those children will be monitored as needed and if active lice are found again parents are encouraged to continue the treatment process.

9. Parents should assume head lice are present in the school and wider community all year. Notes will not be sent home each time there is a case of head lice is discovered. That causes too many problems with speculation about who has lice and children end up being ostracized.

Feel free to call me with questions or assistance with treatment protocols.

Holly Roth RN, BSN
School Nurse

Notes from the Guidance Office

The Iowa Assessments will be given at Lincoln starting Tuesday, November 6, and ending Friday, November 9th. It is imperative that your child be to school each day on time, especially the week we are giving the Iowa Assessments, so they do not have to spend time making up the tests. Getting a good night sleep will help your child be more alert and do better on the tests. Eating a good breakfast is also important. Children who eat breakfast tend to have longer attention spans and do better in school.

Children do not have to eat the traditional breakfast foods. Here are a variety of foods for breakfast.

- *Whole-grain cereal with fruit and milk
- *Whole-wheat toast, eggs, and juice, or milk
- *Fried egg and cheese on whole-wheat toast
- *Oatmeal with raisins and milk
- *Waffles, turkey bacon, and juice
- *Low-fat yogurt with fruit and granola
- *Bagel with cheese or peanut butter
- *Fruit smoothie: fruit and milk or yogurt mixed together in blender
- *Bagel, string cheese, and an apple
- *Whole-wheat toast, hard-boiled egg, and fruit
- *Turkey sandwich and milk
- *Leftover pizza and juice
- *Breakfast burrito: scrambled eggs, cheese, and veggies wrapped in a flour tortilla
- *Peanut butter and jelly sandwich and milk
- *Grilled cheese sandwich and juice

Breakfast is served at Lincoln from 7:40-8:00. Please feel free to contact me if you have any questions.

Shari Mitchell
At Risk Teacher

Notes from the Principal

Lincoln Elementary will be starting Iowa Assessments on Monday, November 5. Tests will be given November 5, through Friday, November 9. Again this year Lincoln Elementary will only take the tests required by No Child Left Behind and the State of Iowa. The hope is to minimize the number of tests given so students will maximize their effort. We will be giving the students motivation and rewards for doing their best!

It is important that the students do their best on the test. Both the students and Lincoln Elementary School are measured on the results of the Iowa Assessments. These test scores will be used to help identify non-proficient students. Please make sure your child gets enough rest and has a good breakfast. Any student missing days during this time will need to make up the missed test upon their return. Students will receive a snack during homeroom compliments of the Lincoln PTG.

It is important that the students do their best on the test. The Iowa Assessments:

- Help determine how students are performing on the state curriculum as described in the Iowa Core.
- Measure student growth and progress from year to year.
- Help teachers identify a student's strengths and identify areas that may need additional emphasis.
- Provide information about your child's performance relative to the school, the state of Iowa, and the nation. The assessments produce information that enable sound decision-making and provide a focus for teachers to evaluate their instruction.

Schedule of Iowa Assessments Tests:

<u>Date</u>	<u>Test</u>
Monday, November 5	Try-Out Test (50 minutes) Survey (10 minutes)
Tuesday, November 6-	Reading- Part 1 (30 minutes)
	Reading- Part 2 (30 minutes)
Wednesday, November 7- Mathematics -	Mathematics- Part 1 (30 minutes) Part 2 (30 minutes)
Thursday, Nov 8-	Computation (20 minutes)
Friday, November 9-	Science (35 minutes)

Students will receive a snack during homeroom compliments of the Lincoln PTG. We will use the week of November 12-16 to make up tests for those students absent.

With the cold weather and possibility of snow in the upcoming months, we ask that you to make sure your child is dressed warm for recess. A lot of students find themselves getting cold at recess because they did not bring a hat or gloves.

Our rules for the playground during the winter season are very simple. When there is snow on the playground:

- 1) Students **must** wear boots and snow pants to go off of the blacktop area.
- 2) No throwing snowballs.
- 3) No king of the hill on the snow piles.

These rules are for the safety of the students.

David Hoffman, Principal
Lincoln Elementary
